Introducing the **DURA SHOT™**

Zep DURA SHOT
Product #SP00021

SAFETY WARNING

PLEASE NOTE: Always check the Safety Data Sheet (SDS) for any product that will be used with this sprayer. Some chemicals may be incompatible with aluminum, the main constructive component of the Dura Shot. This will be indicated in the chemical's SDS under the Incompatible Material section. Use of these incompatible chemicals may pose a serious safety hazard and should not be used with the Dura Shot sprayer. Chemicals to be avoided include, but are not limited to, Halogenated solvents, such as Chlorinated or Brominated solvents. There may be other products, chemicals or solvents that should be avoided, so please refer to the product's SDS prior to using with the Dura Shot sprayer.

A straight shot of solvent

Zep® DURA SHOT™

Durable, Heavy-duty Compressed Air Sprayer

Now you can shoot solvent exactly where you need it with the Zep DURA SHOT. Made of anodized aluminum, this light, maneuverable sprayer is easy to fill – and its convenient trigger spray handle gives you positive control. Best of all, this heavy-duty sprayer is built to last.

Features & Benefits

- Use for both solvent and water based products
- Lightweight anodized aluminum reduces fatigue
- Easy fill
- Twist off cap (no tools required)
- Sprays in vertical and horizontal position
- 24 oz. capacity

Caution – do not use with acids or caustic water-based products
